

Ultra Blue Antifreeze

Monoethylene glycol based antifreeze
Part No. U908

Product Description:

Ultra Blue Antifreeze is a universal engine coolant, suitable for all year round usage.

Ultra Blue Antifreeze is manufactured from pure monoethylene glycol, anti-corrosion additives and inhibitors. It has been specially formulated to be truly universal in its application. It provides a high degree of corrosion protection for all engine cooling systems whether they are predominantly of aluminium or ferrous construction. Ultra Blue Antifreeze employs established inhibitor technology and is nitrite, amine and phosphate (NAP) free and includes borate and silicate.

Ultra Blue Antifreeze contains a bittering agent to prevent accidental consumption.

Application:

Ultra Blue Antifreeze is suitable for all year round usage in automotive and commercial petrol and diesel engines and certain industrial applications.

Recommended Dilutions:

Concentration (by volume)	25%	33%	40%	50%	60%
Specific Gravity @ 20°C	1.030	1.045	1.060	1.074	1.087
Freeze Protection (°C)*	- 12	- 22	- 27	- 40	- 56

*Average of freezing point and pour point.

Product Specification:

Ultra Blue Antifreeze meets or exceeds the requirements of the following European & international standards:

ASTM D 3306 & ASTM D 4985
SAE J 1034
BS 6580: 2010

Typical Test Data:

Appearance	Clear blue liquid
Water Content (% w/w)	4.3
Density at 15°C (kg/l)	1.119
Reflux Boiling Point (°C)	161
pH (50% v/v in Deionised Water)	7.8
Reserve Alkalinity (ml 0.1N HCl)	20.5
